

# Top 5 artists in terms of revenue

Top 5 Artists in terms of revenue

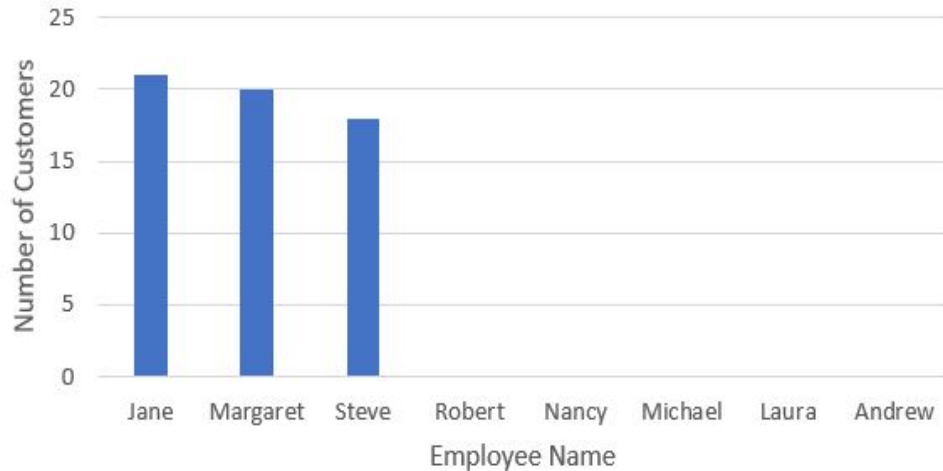

artist iron maiden comes first by a huge difference resulting in 1233.54

after him with a great gap comes 'U2' and 'Lost' in close results of 895.59 and 833.7

after them with a little gap comes 'Led Zeppelin' and 'Metallica'

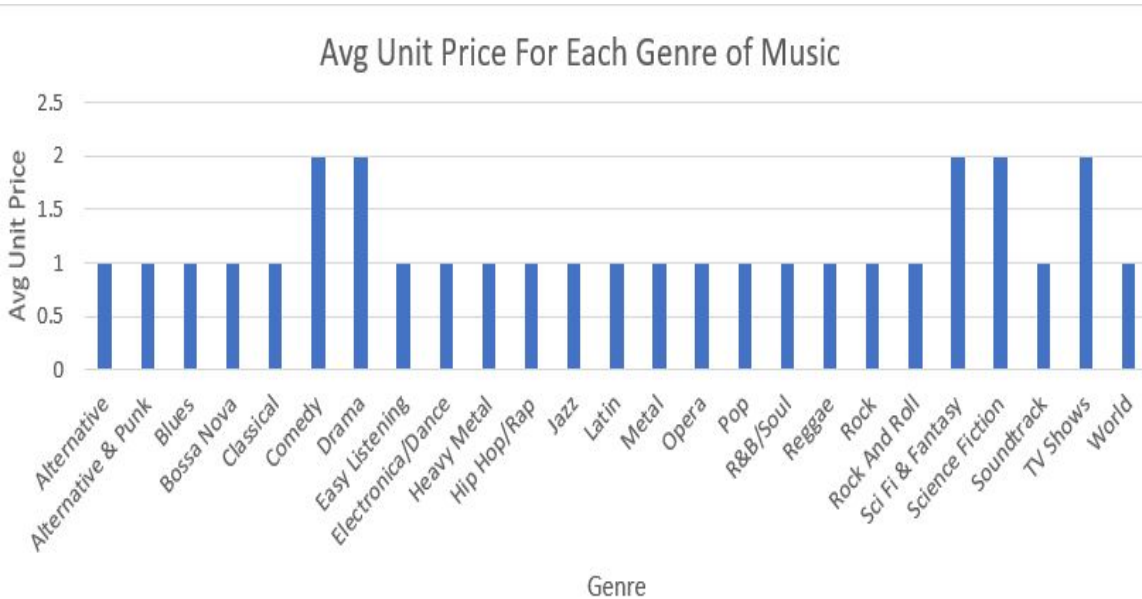

# Number of customers being supported per employee

Number of Customers Supported by each employee

Interesting results as only Jane, Margaret and Steve are the only ones who are serving many customers and the rest isn't supporting anyone literally 0 customers are being supported by the rest of employees

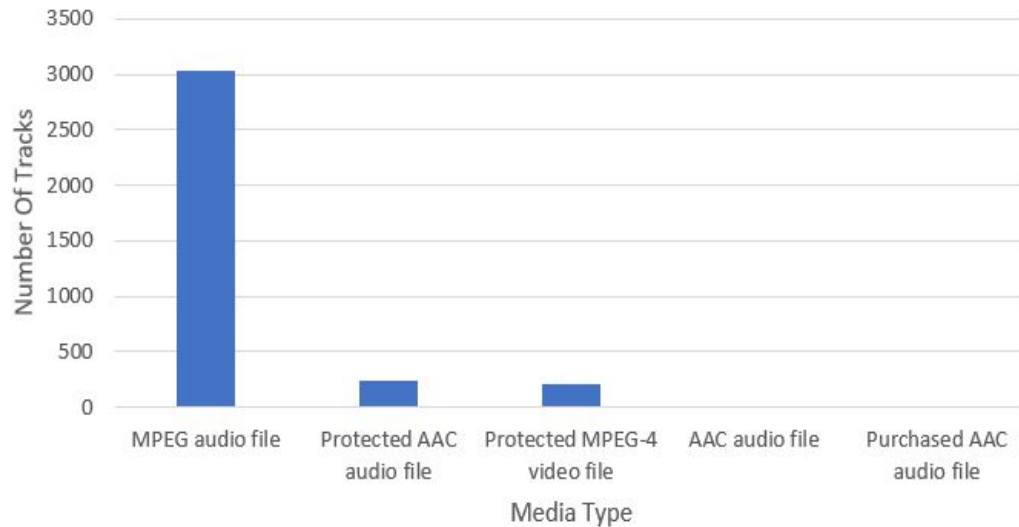

# Avg Unit Price

The average unit price is looking pretty consistent over the different genres of music, however Comedy, Drama, Sci Fi & Fantasy, Science Fiction and TV Shows has almost 2 avg unit price

# Number of tracks per media type

Number of Tracks for Each Type of Media

We can see here that the MPEG is dominating among all tracks as it's being used widely there, and the Protected AAC as well as protected MPEG-4 comes next with a huge gap between the MPEG

After it the AAC and Purchased AAC is pretty low that it looks very rare

Only 11 and 7, 18 track for them combined !
